- **Face mount 2.0" diameter package**
- **Up to 2540 PPR with optional marker pulse**
- **Rugged all-metal housing**
- **Shielded cable standard**

The Series E20 is a totally enclosed, easy-to-install, incremental encoder designed for lighter-duty industrial and commercial applications with limited space. It is a 2" diameter, face-mount unit with a rugged, metal housing. The Series E20 includes precision bearings, and a 1/4" diameter stainless steel shaft.

Series E20 incorporates the latest in microelectronic packaging, LED light sources, and matched sensors. Outputs are designed to be compatible with most 5V TTL circuits with options for higher voltage 12 and 15 VDC. Shielded cable is standard. Line drivers with complementary outputs are available for longer cable runs and/or higher ambient electrical noise immunity.
